

UTILITY SITE PLAN ATTACHMENT

The City of Greenfield, DPW Engineering Division requires a utility site plan certified by a Registered Massachusetts Civil Engineer and/or Registered Massachusetts Land Surveyor for all proposed and existing buildings. Sewer connections requiring use of a pump system shall have a Registered Massachusetts Civil Engineer stamp.

The utility site plan must include all proposed and existing ties and elevations of the following:

- Driveway location, grading and drainage systems
- Grading plan (2 foot contours)
- Building location and elevation (top of slab and top of sill)
- Sewer service (size, location and elevation)
- Drain (size, location and elevation)
- Water service (size, location and elevation)
- Property lines and street line
- Street Elevations (grade, sewer, water and drain)
